

## We are excited to announce the third annual Collaborative Response Model Conference!

## Collaborative Response Model Conference

#crmcon

*Our planning committee has been working hard to plan another exceptional learning experience, bringing together dedicated educators and partners to engage in discussion and learning related to the Collaborative Response Model.*

### What is the Collaborative Response Model?

The Collaborative Response Model is a systemic framework that values and accelerates purposeful collaboration, action-focused responses, data-informed discussions, and timely intervention to ensure all students can experience success. Educators are empowered through collaborative processes that enhance professional capacity, builds collective efficacy and honour the collective wisdom of those working with students. This conference will once again be an outstanding opportunity to learn more about how schools and districts are developing inclusive frameworks of collaborative response, as well as connect with other dedicated educational leaders engaging in this transformational model of structures, processes and beliefs.

Learn more about the Collaborative Response Model at <http://jigsawlearning.ca/collaborative-response-model/>

### Why Attend the Conference?

The conference is scheduled for April 3-5, 2019 at the Delta Edmonton South in Edmonton, Alberta. Full details about the conference are available at <http://crmconference.ca>.

In planning this event, our planning committee envision that the conference will again be an opportunity to:

- Celebrate the diversity of individual contexts for schools and districts, different stages of implementation, and the flexibility of the Collaborative Response Model framework through an innovative grassroots approach to learning and sharing
- Network, share and celebrate the diverse and differentiated Collaborative Response Model practices happening across the province of Alberta and beyond
- Engage openly regarding the challenges and successes being experienced across the greater educational community, honouring honest and transparent conversation
- Share and access additional resources and supports from district leadership to classroom practices to support and extend the Collaborative Response Model and related work

This year's theme "**Peeling Back the Layers: Simplicity of CRM**" will focus on digging deeper into the Collaborative Response Model Framework at the School and District level in six themes (some breakout session options will be delivered in French):

- Leadership
- Embedding Time
- Collaborative Team Meetings
- Assessments
- Pyramid of Interventions/Continuum of Supports
- Planning for Interventions

**To help us in sharing this outstanding learning and networking event, we request that the posters included in this package be distributed to your schools, as well as information about the conference be shared with your school and district leaders.**

Thank you in advance for your time and interest in what we hope will be a transformational learning event! For more information or to connect with our planning team, please email us at [conference@jigsawlearning.ca](mailto:conference@jigsawlearning.ca). A digital copy of this overview letter can be found at <http://bit.ly/crmconference2019overview> and digital copies of the posters can be found at <http://crmconference.ca/wp-content/uploads/2019/01/April-Poster-3-5-Final.pdf>.
